

Let us decrease your billing headaches... ..
while increasing your bottom line.

- Achieve **greater control** of your practice
- Use our “Front Office PM” system for **Detailed Office Operations and Management.**
- **Daily Claim Filing** provides a consistent cash flow throughout the month for your practice.
- **Professional Monthly Review** to identify opportunities to keep your office on track to higher revenue.
- Billing Fees **Based On Collections**, not the charge. We don't just skim off the top like some billing services. All claims (large or small) are processed with the same vigor to get them paid.

Why use iNtelli-Bill™ ?

Let's be straight forward here. Almost anyone can file claims—*But can they do it right?* Do they retain the knowledge to meet the various criteria for each payer?

We have extensive experience submitting claims to individual insurance companies and getting them paid.

Each payer has specific requirements you must meet before they will even look at a claim. It's confusing and causes some billers to simply give up and not push to get the claim paid.

iNtelli-Bill™ Knows what each payer requires and we include it when filing each claim.

We excel at providing our clients with increased revenue!

- 1) We rely on many years of **hard earned knowledge** to submit your claim correctly the first time...
- 2) **Redundancy**—Each claim is reviewed by a minimum of two Billing and Coding Experts before filing.
- 3) **Artificial intelligent Software** learns from past successes and mistakes. It prevents mistakes or omissions from being made in the first place.

These points simply mean fewer rejections and **Higher Revenue** for your practice.

Basic History...

iNtelli-Bill™ (formerly *HorizonMIS* of American Medical Systems) —has been located in **Jacksonville, FL** area for more than three decades. iNtelli-Bill™ is the next generation, extending the great functions of *HorizonMIS* to tackle the ever changing medical billing and practice management functions.

You must have great tools to do great work. So we developed our very own **Practice Management & Billing System** software package — **iNtelli-Bill™**. In keeping with our 30 year history of success, we've made many software upgrades designed to serve the needs of today's billing office.

Ease the Office Manager Headaches...

- **Qualified Staffing** is always an issue in a physicians office. No longer be concerned with sick days or turnovers in your billing department seriously interrupting your revenue cycle. With iNtelli-Bill's **Redundancy** we work your claims daily—regardless if someone is out sick. **This keeps the cash flowing and the Doctor Happy!!!**
- Direct your **Patient Billing Questions** to us. Free up staff from having to decipher a billing issue. Just tell the patient they need to call your billing office — **iNtelli-Bill™**.

The Doctors watching the bottom line...

- **Raise your Percentage of Collections** with our **proven procedures**.
- **Streamline** your revenue cycle for efficiency.
- **100% Financial Transparency** keeping you in the loop with iNtelli-Bill Billing Service.

Our Bottom line—iNtelli-Bill™ provides confidence you are retaining as much hard earned cash as possible and increasing your bottom line.

Our “Front Office PM” System is included...

Everything is available on the Cloud. There is no specialized equipment to purchase and you can securely access our servers remotely from your existing internet connected Windows PC.

The Practice Management System provides you with the following features. (*Some items are optional and some you will not need if using our Billing Service*).

- ✓ **Appointment and Resource Scheduling**—Our powerful scheduler is at the heart of the system and provides support for multiple providers at multiple locations.
- ✓ **Email / Text Appointment Reminders**—Send an email or a text directly to the patients cell phone to reduce missed appointments.
- ✓ **Email / Text Patient Statements**—Send an email or a text directly to the patients preferred communication method (most prefer cell phone) where they can pay immediately via online patient portal or phone the billing office.
- ✓ **Patient—Registration, Demographics, Inquiry, History, Reports, and more...**
- ✓ **Insurance Eligibility Verification**—The **Appointment Scheduler** scans future appointments and automatically searches for **Eligibility and co-pay information**. This is stored with the patient file for review at any time. It provides active alerts about insurance coverage before the appointment is made.
- ✓ **Pre-Collection Message**—In addition to sending patient statements we send a series of collection messages to increase patient payments and identify those who require a full collection effort.
- ✓ **A multitude of Powerful reports**—Can be created at anytime and without having to call the billing service. Create various reports on either individual patients or your entire practice. All are easily created with just a few key strokes.
- ✓ **Full and Transparent** access. Achieve the ability to review our progress and the status of any account in real time...

- ✓ With “Front Office PM” your practice works with the exact same data as we do so nothing falls through the cracks. Eliminate data entry mistakes created by keying the same information twice.
- ✓ Easily share patient information and other data between our system and any **HL7 supported EHRIEMR**. HL7 is a standard DATA interface designed for the medical industry.

Keep in Mind—with our systems you can take your office with you via **Web-Based Remote Access**. Operate our services from multiple locations including your home. Check appointments, run reports, update patient files it doesn't matter. You have ALL features available from almost anywhere.

Take control yourself... ...on the Cloud

At anytime you have the option to easily change to the FULL VERSION of iNtelli-Bill™ software with **your staff at the helm**.

With **Remote Cloud Access** to **iNtelli-Bill™** changing how you work is never an issue. If you are a billing client and want to bring it all in-house someday it's an easy transition. And this works both ways as you can go from all in-house to our billing service just as easy.

- No expensive server to purchase or maintain.
- No software to buy.
- The entire Practice Management & Billing System is available from our data center for you to securely access from anywhere, anytime, and with any Windows PC.
